TECHNICAL SKILLS

Languages: Java, C++, MySQL, HTML5, CSS3, XML, JavaScript, TypeScript

Frameworks: React, Node.js, Material-UI, Spring Boot (MVC), Hibernate (ORM), Tailwind CSS, Lombok

Developer Tools: AWS, Maven, Apache Tomcat, TortoiseGit, MySQL Workbench, Docker, VS Code, Visual Studio, Eclipse

EXPERIENCE

Website Developer Intern

Jan. 2024 — Dec. 2024

Houston Housing Authority

Houston, TX

- Collaborated in a team environment to take internal business requirements and develop technical designs for production applications.
- Developed clean code for a robust backend architecture using Java, Spring Boot, and Hibernate ORM to ensure scalable system applications.
- Built a front-facing internal website for production use utilizing React, HTML5, CSS3, and JavaScript to improve user experience and interface functionality.
- Applied working knowledge of databases to improve the efficiency of SQL-based management reports, utilizing SSIS for automated data gathering and timed reporting.
- Followed established processes for testing and debugging to ensure compliance with internal standards and project requirements.

Student Services and Admissions

Aug. 2022 – Dec. 2022

Lone Star College

Cypress, TX

- Managed day-to-day customer interactions, assessing complex enrollment requirements and establishing facts to provide technical resolutions.
- Assess and troubleshoot computer problems brought by students, faculty and staff
- Documented requirements and performed a variety of corrections for student records, ensuring data accuracy and resolving customer satisfaction issues.

PROJECTS

Student Management System | *Java, Spring Boot, Hibernate, AWS, MySQL*

Aug 2026 – Present

- Developed an extensive backend using Java Spring Boot and Spring Data JPA (Hibernate) for seamless database integration and CRUD operations.
- Utilized AWS to host the system application, managing data structures and ensuring high performance for production-level video data.
- Maintained data integrity for courses and grades using MySQL relational database structures.

Thuytiepie Hotel Management | *MySQL, Database Systems*

Sep 2025 – Nov 2025

- Formulated a technical design for a robust hotel management database utilizing multiple queries to manipulate and organize data.
- Incorporated many update, select, and deletion scripts to emulate proper database functionality.
- Eliminated transitive dependencies to achieve Third Normal Form, preventing deletion anomalies and ensuring high-quality data architecture.
- Collaborated with Minecraft server administrators to suggest features and get feedback about the plugin

EDUCATION

University of Houston - Downtown

Houston, TX

Bachelor of Science in Computer Science

2025 – 2026

Houston City College

Houston, TX

Associate of Science in Computer Science

2024
